Speculative Application (m/f/d)

[Apply Now](#)

Company: Open-Xchange

Location: Japan

Category: other-general

Our Mission:

Are you a motivated experienced person, used to working in an international multi-cultural environment, who really wants to make a difference in the open-source world?

Are you looking for a role where you can really make an impact?

At Open-Xchange, we decided to leave dead-end jobs where you don't make an impact and offer passionate experts the opportunity to be part of an international team that connects the world and millions of people by developing and delivering open-source technologies.

We believe it's crucial to work in an environment where people feel valued, are energized by their work and deliver added value – not only to colleagues, but also to everyone using our products.

So this is what you get at Open-Xchange:

You'll learn from experts and increase proficiency by sharing your knowledge and profiting from theirs.

You'll work with colleagues from all over the world, so connecting people is not only our vision, it's the way we work.

You'll use open-source technology and play your part in the fight against big, dominant companies to keep the internet open.

You'll work in a company with the whole tech stack.

Does that sound like the working environment for you? If so, please get in touch and we

can start the discussion.

Many experts feel trapped in their job and don't think they can make a difference; however, that's simply not true – everyone can make a difference!

Be ready to shape your personal future, and the future of millions of people.

Join us in our fight for an open internet and deliver added value! All you need to do is get in touch, so click the 'apply now' button, fill the form for a speculative application and be in contact.

In addition, you can also look forward to the following:

The possibility to work full or part time wherever you want in accordance with your needs.

Flexible working hours that allow you to successfully combine your home and family responsibilities with work.

Stay up to date with latest tech, by working on modern cloud software in an international team.

Sharing thoughts is part of our DNA so expect Workshops and Team Events.

Taking part in one of our Communities of Practice.

Time off for volunteer work.

We can discuss further location-related benefits together in an initial talk (company bike, company sports, digital meal vouchers, company pension scheme, subsidy for ergonomic chairs and desks).

Join the team:

Join us in our fight for an open internet and deliver added value! All you need to do is get in touch, so click the 'apply now' button, fill the form for a speculative application and be in contact.
